

NANO-MATERIAL FREE

As a global leader in the supply of ingredients to the cosmetics and personal care industry, Floratech strives to continually meet and exceed expectations for service and quality.

Nanomaterials are defined under the EU Cosmetic Directives (1223/2009/EC) as, “insoluble or biopersistent and intentionally manufactured material with one or more external dimensions, or an internal structure, on the scale from 1 to 100 nm.” Nanomaterials are not used in the manufacture of Floratech products, nor are they found in Floratech products.
