

ABSENCE OF VOLATILE ORGANIC COMPOUNDS

As a global leader in the supply of ingredients to the cosmetic and personal care industry, Floratech strives to continually meet and exceed expectations for service and quality.

Volatile organic compounds (VOCs) are defined by the Environmental Protection Agency (EPA) [Code of Federal Regulations, 40: Chapter 1, Subchapter C, Part 51, Subpart F, 51100] as organic chemical compounds whose composition allows for evaporation under normal indoor conditions of temperature and pressure, thus participating in atmospheric photochemical reactions. In addition to the EPA, the California Air Resources Board (CARB) limits the quantity of VOCs content within products for consumer safety. Floratech products are not expected to contain, nor do they contain, any VOCs.

This statement includes the following products and product lines:

- ECOBEADS[®]
- EMULSUN[®]
- FLORABEADS[®]
- FLORAESTERS[®]
- FLORALIPIDS[®]
- FLORAMAC[®]
- FLORAPEARLS[®]
- FLORASOMES[®] STANDARD
- FLORASPHERES[®]
- FLORASUN[®]
- L22[®]
- METABEADS[®]
- METAPEARLS[®]
- METASOMES[®] STANDARD
- METASPHERES[®]
- ORTHOBEADS[®]
- PARABEADS[®]
