

FORMALDEHYDE FREE

As a global leader in the supply of ingredients to the cosmetics and personal care industry, Floratech strives to continually meet and exceed expectations for service and quality.

Floritech products do not contain formalin, free formaldehyde, or chemicals containing formaldehyde donors. Formaldehyde-releasing preservatives and packaging materials are also not used in the manufacture or processing of Floritech products, and so the release of formaldehyde during storage and use is not expected.

This statement is true for the following products and product lines:
