

PEG-Free Body Wash Featuring Floraesters K-20W Jojoba

Products Highlighted: *Floraesters K-20W® Jojoba and Florabeads® Jojoba*

Floraesters® K-20W Jojoba plays a dual role in this unique body wash. First, it is a naturally derived neutralizer for the polymer system. Second, it imparts an unmistakable skin feel after use that is substantive, moisturizing, and smooth to the touch. The Florabeads provide a visual effect and add a gentle exfoliating experience with residual jojoba emolliency.

Phase	Trade/Common Name	INCI Name	Manufacturer	%wt/wt
A.	Deionized Water	Water	-----	q.s.
	Quatrisoft® Polymer LM-200	Polyquaternium-24	The Dow Chemical Co.	0.10
	Taurano® I-78	Sodium Cocoyl Isethionate	Innospec Performance Chemicals	4.70
	Standapol® ES-2	Sodium Laureth Sulfate	BASF Corporation	20.20

	Fragrance	-----	-----	q.s.
D.	Florabeads Jojoba 28/60 Jade²	Jojoba Esters	Floratech	1.70
Total				100.00

Mixing Procedure

1. Mix all ingredients of Phase A with moderate to rapid propeller agitation while heating to 70°C. Add the Carbopol Aqua SF-1 Polymer slowly to the mixing vessel to ensure proper mixing.
2. Mix all components of Phase B at room temperature. Slowly add Phase B (to ensure proper neutralization of the polymer) to Phase A at 70°C and mix until uniform.
3. Begin cooling to 50°C. Add ingredients of Phase C with moderate propeller agitation at 45-50°C. Cool to room temperature and add the Florabeads Jojoba 28/60 Jade of Phase D with slow, sweep agitation.

¹ Preservative: Kathon® CG [INCI: Methylchloroisothiazolinone (and) Methylisothiazolinone] supplied by The Dow Chemical Co.
