

After-Sun Moisturizing Lotion

Products Highlighted: *Floraesters® 20, Floraesters 30, and Florasun® 90*

a **Cargill** company

This light, soothing after-sun lotion provides a moisturizing treatment to dry, sun-baked skin. The product features Florasun 90 (high-oleic sunflower oil) and jojoba esters which reduce redness and improve barrier function. This sun care product may be marketed as natural, botanical, and renewable.

Phase	Trade/Common Name	INCI Name	Manufacturer	%wt/wt

			Total	100.00

Mixing Procedure

1. Heat the deionized water of Phase A to 75°C and with moderate propeller agitation; add the remaining ingredients of Phase A in the order listed.
2. Combine and heat Phase B to 75°C with moderate propeller agitation.
3. Slowly add Phase B to Phase A with rapid propeller agitation at 75°C. Mix until uniform prior to cooling.
4. At 60°C, add Phase C to Phase AB with moderate propeller agitation. Mix until batch is homogeneous. Cool batch to 45°C.
5. At 45°C, add in Phase D in the order listed and agitate until uniform. Cool to room temperature.
