

The Natural Solution

# Florabeads® RBW

hard scrubbing beads

## Benefits & Functions:

- Stable
- Globally Allowed<sup>1</sup>
- Biodegradable
- Spherical
- Botanical
- Gentle yet Effective Exfoliation

## Florabeads RBW (Rice Bran Wax)

Florabeads RBW provide gentle yet effective exfoliation to the skin. Mechanical exfoliation loosens and removes dead skin cells, stimulating cell turnover.

Florabeads RBW are more stable than other natural exfoliants on the market. The International Dermal Institute only recommends the use of scrubs that do not result in irritation. They do not recommend using crushed fruit pits, shells or similar damaging materials,<sup>2</sup> making smooth, spherical Florabeads the better choice than these other natural exfoliants.

Florabeads RBW contain no microplastics and are not restricted by any microplastics legislation. Florabeads RBW are available in their natural, pigment-free color in a particle size range of 250 to 600 microns.
